LOTIS AZON 230 Innovation Pilot

Enable big-bank resilience for financial orgs of any size

© 2025 Lotis Aus Pty Ltd ACN 689 059 345

AZON 230 is like GPS navigation for business operations: it guides you quickly out of any outage, steers clear of supplier's jam, and keeps you compliant with CPS 230.

Get Started in 3 Simple Steps

1. **Upload**
   Your existing MSP Register, Information Asset Register and Org Charts
2. **Check**
   Enriched data in the AZON 230 platform
   Just 1 hour per critical operation
3. **Use**
   For Board reporting and decision making
   We keep it updated for you

Secure & Reliable: Powered by Essential with enterprise-grade support, security, ISO 27001, and Australian hosting.

Why It's Simple

- Uses your existing documents
- Complements your current workflow
- Visual dashboards that tell a story
- Minimal team training and effort
- No custom integrations required

Why It's Better

- Built specifically for APRA CPS 230
- Integrated supplier assessments
- Eliminates manual data updates
- Data is checked and benchmarked

Case Study: *During the July 2024 CrowdStrike outage, even non-CrowdStrike users were hit through supply chains. AZON 230 reveals these unexpected hidden impacts before they become disruptions.*

Persistent Benefits Beyond Compliance

- Confidence in recovery within set tolerance levels with prioritised remediation planning.
- Dependencies mapped to processes, suppliers, teams, sites, data and technology.
- Supply chains linked and checked up to 5th-party level for concentration risk control.
- Business Continuity Plan details generated instantly and accurately for each critical operation.
- Enhanced Board and regulatory reports with aggregated data from many systems and suppliers.

Ready to Get Started?

Join the Innovation Pilot open to four APRA-regulated entities until 14 November 2025.
