AZON 230 Consultant

Accessible data-driven advisory tools for consultancies of any size

© 2025 Lotis Aus Pty Ltd ACN 689 059 345

AZON 230 delivers X-ray vision into business operations, IT and supply chain, to help consultants uncover hidden weaknesses for better risk, transformation and strategic advice.

Get Started in 3 Simple Steps

1. **Upload**
   Client's existing MSP Register, Info Asset Register and Org Charts
2. **Check**
   Enriched data in the AZON 230 platform
   Just 1 hour with client per critical operation
3. **Use**
   For strategic and compliance advice
   We keep it updated for you

Secure & Reliable: Powered by Essential with enterprise-grade support, security, ISO 27001, and Australian hosting.

Why It's Simple

- Uses client's existing documents
- Complements your current workflow
- Visual dashboards that tell a story
- Minimal consultant training and effort
- No custom integrations required

Why It's Better

- Enables new kinds of value-add advice
- Built for APRA CPS 230 and SOCI Act
- Integrated supplier assessments
- Eliminates manual data updates
- Data is checked and benchmarked

Case Study: *During the July 2024 CrowdStrike outage, even non-CrowdStrike users were hit through supply chains. AZON 230 reveals these unexpected hidden impacts before they become disruptions.*

Benefits and Trust That Build a Steady Project Pipeline

- Deliver confidence in recovery within set tolerance levels with prioritised action plan.
- Provide dependencies mapped to processes, suppliers, teams, sites, data and technology.
- Explore concentration risks with supply chains linked and checked up to 5th-party level.
- Create Business Continuity Plan details instantly for each client's critical operation.
- Get lifetime commission for clients onboarded on AZON 230 Managed with equity options.
