Uncharted Learning
Agilities™ Training Syllabus

The DeBruce Foundation recognizes the crucial role of both formal and informal educators in coaching students on their career journeys. This free training will equip you with the knowledge necessary to establish an Agilities Classroom. You will gain the expertise to seamlessly integrate the Agilities educational resources into your programming.

Expected Outcomes for All Modules

- Discover the Agilities Framework
- Gain access to the K-12 Career Literacy Resources
- Evaluate the value of creating an Agilities Classroom in your learning environment
- Understand the navigation of the resource kit(s) of your choice
- Practice implementing Agilities language into your learning environment
- Learn from others and strategize implementation options

Time	Learning Experience
8:30–9:15 AM	Welcome, Connection + Grounding | Connect with fellow educators, preview the day, explore the future of work, and participate in an Agilities inclusion activity.
9:15–10:35 AM	Module 1: Agilities Overview | Build your understanding of the Agilities framework, explore connections to Uncharted Learning, practice applying Agilities language, and reflect on the learning.
10:35–11:55 AM	Module 2: Creating an Agilities Classroom | Explore K–12 resources, practice Agilities vocabulary and goal-setting, and navigate student, educator, and lesson resources in the portal.
12:00–12:30 PM	*Lunch*
12:30–12:55 PM	Module 3: Career Explorer Tools | Explore the Occupation Decoder and Occupation Explorer and consider how the tools can support students' career exploration.
12:55–2:20 PM	Module 4: Discovering Connections | Apply Agilities language to Uncharted Learning scenarios, share how Agilities are being used with students, and explore connections to existing curriculum and student experiences.
2:20–2:45 PM	Personal Agilities Action Plan | Identify practical next steps for bringing the Agilities into your classroom or course.
2:45–3:00 PM	Reflection + Workshop Close | Reflect on the day, provide feedback, and identify what comes next.
